

## **In-Person Class and Rehearsal Protocols**

**Fall 2021**

We are excited to jump back in this fall with a full slate of Monday and Tuesday night classes as well as starting up in-person shows!

As COVID restrictions continue lifting in various industries, we are continuing to monitor what will be required of us (as a children's arts education organization) by the state, CDC and the local churches and school districts from which we rent space.

At the moment, our local school districts and the CDC are requiring masks indoors for unvaccinated adults and children, with relaxed restrictions on temperature checks, distancing and capacity.

We will provide an update before classes begin as to the protocols we will be following at that time, and will update everyone if any changes take place mid-session. We appreciate your understanding and participation as we build together this vibrant community.
